

The Do All from AgLine is an ideal implement for use on tilled soil. It crushes dirt clods and cuts vegetation with its front rolling basket, and it levels and grinds the soil with a five-section spike harrow and back leveling bar.

The Do All a perfect tool for working on food plots, as it breaks ground for seedbed, levels the soil, and covers the seed. The spike harrow cleans and conditions sold for seedbed. The hinged design sheds grass from the heavy-duty, 3/4" spikes as it cuts.

The convenient 3 point hitch design makes it simple to transport the Do All between fields. It is quick hitch compatible for Cat 1 and Cat 2 hitches.

Grass cuts easily with the front rolling basket with spiral cutting reel, which also handles weeds and dirt clods.
